> *do, hence the very concept of government will disappear from the face of earth.* ***The very existence of government or state is predicated upon the stupidity of the citizens – the more stupid the masses, the more powerful the government****."*
> ~ Abhijit Naskar, Boldly Comes Justice: Sentient Not Silent

Considering the quote above, and the fact that this government in the U.S. is the most evil and corrupt possible, one must conclude that the American masses must be the most stupid in all of history. This thinking is not even a stretch at this point, and should be considered validation of fact. This mass stupidity of the majority in this country could only be the result of a lifetime, from birth until death, of mass indoctrination, brainwashing, and propaganda so intense, as to be able to fool the fools into believing that they are the freest and most exceptional on earth, when the exact opposite is more likely the case.

Even though I have been warning about what was coming for two decades, it is still almost impossible to fathom what has taken place; especially over the past few years due to the completely fabricated, fake, and total fraud of the 'covid' pandemic hoax. But this insanity is now advancing at breakneck speed, as the world's controllers, those who run and control governments, are accomplishing their agendas continuously and openly. Over the past 2 1/2 weeks alone, just since the fraudulent false flag Charlie Kirk 'incident,' this already divided and hate-filled populace has managed to dig deep, and stir up even more division and hate. This is of course, exactly what their masters desired and planned, but once again, the serfs fell right in line with the State's agenda, and behaved just as expected.

Mass surveillance and blanket censorship agendas are being fast-tracked b the Trump administration. This is setting the stage for much more AI and biometric policy and legislation. Mandatory digital ID verification is already being put into place in the UK, and soon to be here as well. This will also lead to full monetary surveillance and control via Trump's planned rollout of his stable-coin scam, and digitization of everything. **Remember, everything in government is planned, never an accident, never organic, and never a coincidence, and all tyrannical measures are connected with every aspect of policy.**

Trump and his goons at Ice have eliminated due process, and are murdering boatloads of people without any effort whatsoever to justify these heinous actions; not that there is any justification for these murders. Many thousands are being abused, deported, and incarcerated without cause. This criminal aggression is being touted as "defending the country from dangerous drugs," and 'illegal immigrants, **but the biggest and most prolific and powerful of all drug dealers in the world is the CIA, so obviously, the excuse being used is an outright lie**, as is always the case. Along with this reprehensible behavior, Trump is staging a war against Venezuela, all under the same lie of protection from drugs, when that is asinine. This is about aggressive and violent regime change and Venezuela's oil. In addition, Trump is again heavily funding the Ukraine/Russia project, and is still funding and weaponizing the slaughter of women and mostly children in the Gaza genocide by the most evil Zionist Jews. He (Trump) is also antagonizing much war and conflict in other areas of the world, and is still levying ridiculous tariffs that are destroying the American populace.

At the same time, the piece of shit 'Defense' (offence) Secretary Pete Hegseth, has called a last-minute meeting of many hundreds of generals and admirals from around the world, to travel to the Quantico military base in Virginia, for a secret in-person meeting. This cannot be good. This is a first, so I do not know what the outcome will be, but it is certainly extremely suspicious.

With all of this and much more evil going on, Trump has just deployed military troops to converge on Portland, Oregon under the guise of protecting Immigration and Customs Enforcement Facilities; and has 'authorized' full military force for these State murderers to use deadly weapons. This is a set-up to stoke civil unrest, due to a another martial law presence of the military in a domestic setting. The goal of course is to purposely create an atmosphere of chaos, so that the government goons can claim cover for their soon-to-be war of aggression on home soil. Nothing worthwhile can come from these domestic invasions by these armed assassins in uniform.

With all this going on and much more, be prepared for new invasive and aggressive maneuvers by this murderous government monster. It seems that new additions of totalitarian rule and false flag events are happening on a constant basis now, and I see no end in sight. All the while, the completely corrupt and complicit FBI are attempting to close any investigation (there is and has not been any investigation) into the Kirk

killing scam. A big sweep under the rug is desired, but **the anomalies and outright insanity and lies in this completely made-up situation are beyond the imagination of any sane person**, but given the ease of tricking this American herd of ignoramuses, the State will likely continue to cover up its massive criminal activity.

In the midst of all this total bullshit, inflation is raging, price inflation is continuing unabated, tariff costs to American consumers is skyrocketing daily, and foreclosures, bankruptcies, and homelessness are increasing dramatically. This is an environment of doom, and it is being guided and played out by this government as if it were a game of death and depopulation.

I hope that more of you prepare for what is coming, because as I see it, very few indeed have a clue as to what their future holds, and will be caught empty-handed when this corrupt and evil system fails, and is replaced by a society based solely on the technocratic model of a few elite rulers, their enforcement scum, and a massive proletariat slave class; at least what is left of it. This economy and fiat economic system is on the verge of a **pre-planned 'collapse**,' and a reset meant to replace this system with an AI, fully digitized, fully controlled, completely bio-metric societal order. Wake up or perish. The choice is yours.

> *"A bad government cannot only be called as a 'bad' government; the real adjective should be this: Enemy! Yes, bad government is a real enemy for the country it governs, **an enemy within**!"* ~ Mehmet Murat ildan
